SENSORY MAP

This Sensory Map illustrates the high-stimulation areas of our building to help patrons navigate, anticipate, and manage sensory input.

This Map illustrates our building during **Performance Times**, which is when Royal Court Theatre is at its busiest.

ROYAL COURT

Sensory Key

Noisy Areas
These areas reach a very loud volume due to members of staff and the public sharing the space.

Busy Areas
These areas tend to be very crowded pre and post show.

Daylight
These areas are lit up by daylight, affected by the time of day.

Places to Sit
These areas have multiple options to put your feet up and relax, without standing around.

Subject to Change Areas
These areas are subject to change, regarding how busy and noisy they can be. It is worth checking these areas out, if you require a calmer space.

Darker Areas
These are darker areas created by lower lighting.
